

**CANDIDATE FOR DIRECTOR
MOJAVE WATER AGENCY, DIVISION 4**

NAME: SCOTT DUNCAN

I am an educator and past assistant to the City Manager of Victorville. It is my goal to help turn the Mojave Water Agency into an effective asset to provide water and control water use in the High Desert.

I am deeply troubled by allegations I have heard telling of violations of the Brown Act and Robert's Rules of Order in the running of meetings and an appointment to fill a vacancy on the Board.

The Mojave Water Agency charter and the adjudication dictate that agency growth is to be paid for by being a wholesaler of water to water companies and government agencies. I understand MWA is now planning to impose taxes on private wells and to impose developer fees on new construction, actions I believe are beyond the authority and mission of the agency.

These allegations and activities have prompted me to run for the MWA Board. The division incumbent, Mike Page, by being part of these activities, is in no way representing the best interests of his constituency. It is imperative that MWA do its job within the authority granted it ethically, lawfully, competently, and transparently.

Please elect me to do just that.
